**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The United States is built upon a free market system. There should never be a monopoly on services like internet. Having been a customer of both AT&T and Comcast previously, it is obvious they only operate with their gross earnings in mind. Companies like Sonic are changing that. They provide a service that is not only effective, but with customer retention and agents who truly want to help.

We need more business like Sonic, not less. Please support broadband competition and the United States free market.
